

leveldb::Harness::db

```
graph LR; A[leveldb::Harness::db] --> B[leveldb::Constructor::db]
```

A diagram showing a pointer relationship between two database objects. On the left, a gray rectangular box contains the text 'leveldb::Harness::db'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'leveldb::Constructor::db'. Both boxes have a thin black border.

leveldb::Constructor::db
