

util/crc32c.h

```
graph TD; A[util/crc32c.h] --> B[stddef.h]; A --> C[stdint.h];
```

The diagram illustrates the header file dependencies for util/crc32c.h. It is a tree structure where the top node, util/crc32c.h, has two children: stddef.h and stdint.h. Arrows point from the top node to each of the bottom nodes.

stddef.h

stdint.h
