

leveldb::SnapshotList
::oldest

```
graph LR; A[leveldb::SnapshotList::oldest] --> B[leveldb::SnapshotList::empty]
```

A diagram showing a pointer relationship between two snapshot lists. On the left, a gray rectangular box contains the text 'leveldb::SnapshotList::oldest'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'leveldb::SnapshotList::empty'. Both boxes have a black border.

leveldb::SnapshotList
::empty
